

## HIVE SIDEBOARD

### DESCRIPTION

Playing on the contrast between rigorous lines, metallic elements, and the soft texture of the quilted nubuck, this sideboard is an outstanding example of Radice's craftsmanship. The glossy white-lacquered rectangular silhouette rests on low, triangular feet and comprises four doors with leather-covered panels and gold-finished metal handles embellished with a hand-engraved design of a panther. Finished with golden profiles, the alluring effect will make this sideboard a statement piece in any home.
