SAFIR DINING CHAIR

DESCRIPTION

Raised on black-lacquered legs (saber-shaped in front and tapered in the back), this classic chair is upholstered in an opulent mauve velvety fabric and sports deep button tufting accents on the cushioned backrest. A wooden panel outlined by metal nailheads and a top handle are placed in the back, representing its distinctive feature. Either alone or combined with the version with armrests, the Safir Chair will make a sophisticated statement in a traditional dining room decor.
