

TOBIA SIDE TABLE

DESCRIPTION

Refined and versatile, this side table will be ideal to liven up a living room corner, and can also be displayed in pairs as an alternative to a traditional coffee table or as bedside tables. Crafted of ebony wood with a matte finish, three panel legs connect the round base to the hand-stitched, top-grain white leather top with a hidden front drawer, a stylish detail that enriches this deceptively simple design by Studio Radice.
